| 4 Aqua Talkwa | 12 The Dumbing |
| 5 Ultimate Terror | 13 Celluloid Heroines |
| 6 Psyche | 14 Unintentional Dimensional |
| 7 Snowfall Snowinter | 15 Snowflake Remake |
| 8 Lawrence | 16 Modern Waste Management |

Instructions For Observing Animations

You will need to have installed *Windows Media Player* (or some other audio-visual program like *Quicktime* or *Real Player*, etc.) onto your computer in order to view animations.

Place CD into disk drive of computer. Call up files. Click to play files in numerical order or whatever order you like. Each file will play separately, so each must be accessed individually. Recommend selecting "Full Screen" view.

SOME DVD players will play these MPEG 1 files. Some DVD players will play only the audio or will not run the animation in time with the audio. Some DVD players will play some of these files accurately, but not all of them. Try it out and see what works on yours, but the computer will give the most reliable play of all the files. Created in 2005 by Charles Rice Goff III.
